Italian F4 Championship: already well past 30 registrations for the 2016 season

The record-high turn-out, reached in less than 24 hours from the opening of registrations for the Italian F.4 Championship powered by Abarth, is forcing the Federation and the Promoter to revise the timetable of scheduled race weekends to welcome all registered entries

Rome – 14 January 2016 – The Italian F.4 Championship powered by Abarth has gone almost beyond the originally established grid limit in less than 24 hours since the registration kick-off.

ACI Sport and WSK Promotion are now busy redefining the race weekend format to accommodate for the great request of participation requested and all new incoming entries.

Further updates will be released soon.
